PASA – Pitch Document (Version 2)

Tagline

Keeping Parents in Sync with Everything Regarding Their Child's Education.

Executive Summary

PASA is a parent-school engagement platform that gives parents visibility into the academic activities, conduct, events, schedules and engagements that shape their children's educational journey.

The Core Problem

Parents often have limited visibility into what is actually happening in their children's school lives. Important information is distributed through learner diaries, printed letters, WhatsApp groups, SMS messages and verbal communication, resulting in missed meetings, missed exams, missed events and reduced accountability.

Why PASA Was Created

Real-world situations inspired PASA:
• Learners suspended for misconduct sometimes present fake guardians to schools, leaving real parents unaware.
• Learners claim to attend extra classes when no classes exist.
• Parents miss meetings because messages never reach them.
• Learners stay late at school while parents are unaware of schedule changes.

PASA was created to ensure parents have direct visibility into important events affecting their children's education.

The Solution

PASA enables schools to publish calendars, meetings, examinations, tests, extra classes, learner conduct updates, events and academic documents. Parents receive relevant information through a secure platform linked to their children.

How PASA Works

School Portal:
• Principals, school administrators and teachers manage information.
• Schools are organised by province and district.

Parent Portal:
• Parent registers.
• Parent selects school and submits learner details.
• School approves the request.
• Parent gains access to learner-related information.

Current MVP

Completed functionality includes:
• Parent registration
• Learner linking workflow
• School and teacher portals
• Calendar management
• Exams and tests
• Extra classes
• Learner conduct visibility
• Role-based permissions
• Row-level security

Business Model

Schools: Free access.
Parents: Free basic account.
Premium Parent Account (R19.99/month):
• Multiple learner profiles
• Cross-school scheduling intelligence
• Enhanced notifications
• Future AI-powered assistance

Vision

A future where every parent has real-time visibility into their child's educational journey, every school can communicate effectively and every learner benefits from stronger support between home and school.
